To Whom It May Concern:

Recently my next door neighbors and close friends were forced to face the reality that their age was beginning to cause problems for them. Both were in their late 80's. As a result it became necessary to look for an assisted living facility. With the help of her daughter they were able to locate a facility that met their needs.

Gifford's TLC is a wonderful facility that is a converted home offering assisted living. It was a private home with four bedrooms and excellent additional rooms. This home offered them their own private suite with a bedroom and bath. In addition, they have a small dog, which was an important part of their family. The home allowed them to take the dog with them. I offer a total picture of the facility, because it is important to get an understanding of what a wonderful place this has proven to be for them. The staff is incredible. They prepare three meals a day, offer snacks whenever asked, make certain the residents take their medicines on time, and in general, look to the welfare of the people in their care. I visit my friends on a regular basis. I have never felt anything but welcome by the staff. I am often there at mealtime and am always offered to join in the meal with the residents.

Because of the excellent care that has been given to my friends, I felt it necessary to write this letter. If the occasion arose to find a place that met all of the needs of a family member or a close friend, I would highly recommend this facility to anyone.

Sincerely,

*Ray LeBlanc*

*To whom it may concern:*

*My husband is a resident of TLC Family Care Home. I am so happy to have found this facility. They are very caring, understanding and really care about their residents. They make it your new home away from home.*
